Government Reorganization and Restructuring

Overview

Dykema represents state and local and governmental entities, as well as underwriters, purchasers, obligors, credit enhancers and trustees in all types of public finance bond and note transactions. Our representation is supported by our knowledge of the latest federal tax and securities law aspects of municipal bond issues as well as extensive experience in structuring both traditional and innovative financings. Each year we serve as bond counsel, underwriter’s counsel, letter of credit bank counsel, or company counsel in many such financings. Our experience encompasses fixed-maturity and commercial-paper issues, issues involving derivative products, taxable and tax-exempt issues, fixed-rate and variable-rate issues, and publicly-sold and privately-negotiated issues.

The Firm is listed as approved bond counsel in *The Bond Buyer’s Municipal Marketplace* (the so-called “Red Book”), the principal directory of its kind. Several of the Firm’s attorneys are members of and active in the National Association of Bond Lawyers, the major professional association of the bond counsel community.

The Firm has served as bond counsel to the State of Michigan and to over 10 State of Michigan financing authorities. Additionally, the Firm regularly serves as bond counsel for a large number of counties, cities, villages, townships and public authorities to finance such diverse local governmental projects as roads and streets, storm and sanitary sewer systems, wastewater treatment plants, water systems, public buildings (including jails, libraries and governmental office buildings of various kinds), public health care facilities and municipal equipment purchases (such as computers and police, fire, sanitation and other public vehicles), as well as cash flow borrowings.

Our involvement in private activity bond financings through governmental “conduit” issuers for qualified charitable, educational and cultural organizations (501(c)(3) organizations) and qualified industrial companies is extensive. We have experience with private activity bond financings throughout the country.

For public finance transactions, Dykema has a long standing commitment to, and well known reputation for, consistent delivery of legal services of the highest quality, painstaking attention to detail and uniform delivery of bond counsel services in a timely, professional and cost effective manner.

Representative Transactions
