***Law360* Covers Findings of Dykema's 10th Annual Mergers & Acquisitions Outlook Survey**

November 13, 2014

Jin-Kyu Koh, Detroit based member and head of Dykema's Corporate Finance Practice Group, was quoted in a *Law360* article—"Execs Predict Deep Cash Piles Will Keep M&A Rolling"—which extensively covers the results of Dykema's 10th annual Mergers & Acquisitions Outlook Survey.

The article discusses how survey respondents feel about the future of the M&A market, including how survey data indicates that executives feel privately owned companies will dominate the marketplace over the next year and that, for the first time in years, the availability of capital far outshined the U.S. economy as the top catalyst for deal activity.
