### **Dykema's Automotive Industry Group Weighs in on the Future of Self-Driving Cars**

**January 15, 2015**

Dykema's Automotive Industry Group authored a thought leadership article titled, "Before Self-Driving Cars: Four Tech Challenges the Auto Industry Faces Today."

The article reveals that autonomous vehicles are still at least a decade away, although, technological advances are making cars safer and more personalized right now. The article highlights some of the challenges the auto industry needs to address moving forward, including the marriage of cultures between Silicon Valley and Detroit, the long lead time of vehicle production and average length of ownership versus rapidly changing technology, and what companies need to do in order to keep data private and secure in connected vehicles.
